

AutoDive® Oyster Platform Design

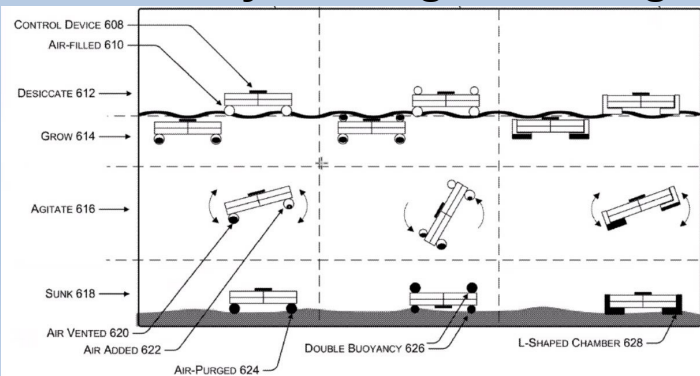

Floating on the Surface

Sitting on the Bottom

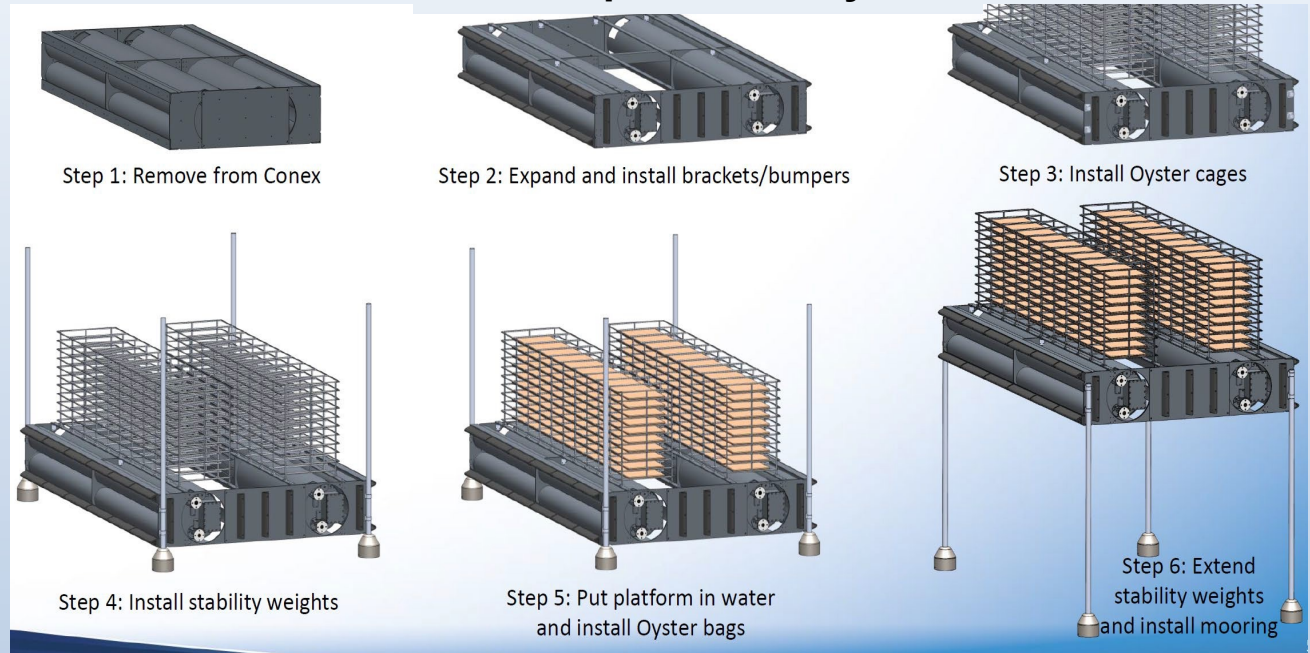

Gently Rotating or Rocking

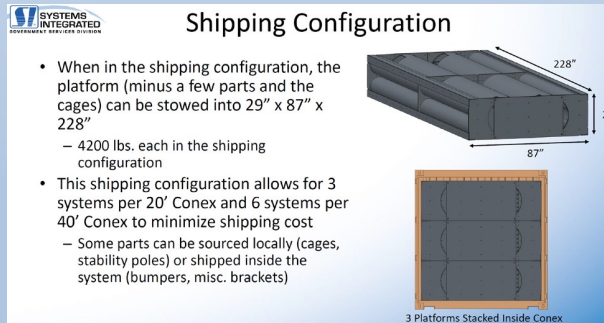

Sheet 6 of 11
US 12,082

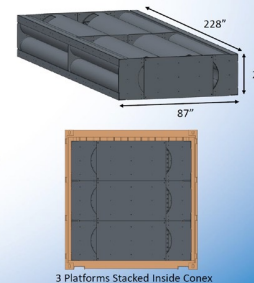

Simple Assembly

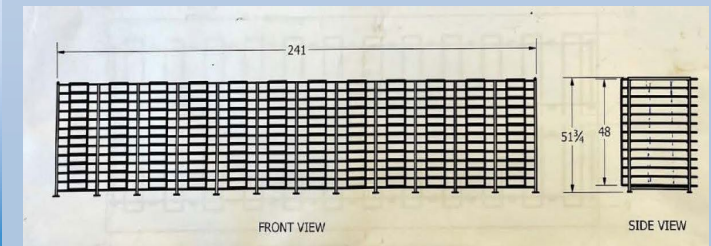

Shipping Configuration

- When in the shipping configuration, the platform (minus a few parts and the cages) can be stowed into 29" x 87" x 228"
 - 4200 lbs. each in the shipping configuration
- This shipping configuration allows for 3 systems per 20' Conex and 6 systems per 40' Conex to minimize shipping cost
 - Some parts can be sourced locally (cages, stability poles) or shipped inside the system (bumpers, misc. brackets)

Customizable Growth Cages

AutoDive can easily be shipped, assembled & customized!
